ABOUT ME

A dynamic professional who combines ambition with a commitment to each project. Known for building strong relationships with colleagues through an open-minded approach and sense of humor, which make even the most challenging projects a pleasure.

EXPERIENCE

Front - end developer in Clavo (10.2020-10.2021)

Clavo - a startup that plans schedules for various teams

- Developed and maintained the UI using **Vue.js**
- Collaborated with design and backend teams to ensure a visually appealing, efficient and scalable product
- I implemented responsive and accessible designs to ensure seamless interaction with users on all devices
- I contributed to the development of new functionalities, including login and payment support

EDUCATION

Warsaw School of economics (10.2021 - now)

Quantitative Methods in Economics and Information Systems

STUDENT ACTIVITIES

- **Inspiring Solutions** - IT applications project in business of the CEMS scientific club, I belonged to the logistics department, setting up the equipment and ensuring that the event took place
- **WYSTARTUJ** - Job fair in startups - Promoting the event on social media and at stands at SGH
- **Juwenalia SGH** - Promoting the event on social media and I was the Owl mascot
- **OIKOS** - coordinating the "Advent Calendar" project, the aim of which was to inspire every day to take up sustainable/eco challenges, initiative taken on social media

HOBBIES
